Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4, 5 and 7-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant recites at claim 4 that the buffer reservoir is removable from and "replaceable in...as a separate unit". It is not clear if the reservoir is replaced with a different element or if the claimed reservoir is placed back into the apparatus. It is not clear from the claim how this process is done. There is recited no means for performing the claimed function or supporting or releasing the reservoir.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4, 5 and 7-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Kraan '792.

There is disclosed in Kraan a beverage preparation apparatus, comprising: a holder 4 for supporting a coffee cartridge, the holder having an inlet 24 and outlet 20, the outlet forming a nozzle 22; a hot water means 38, 40, 42 for supplying hot water

under pressure; a first buffer reservoir 28 having a first outflow path 30; a second buffer reservoir 25 having a second outflow path 26, the second buffer reservoir forming an impact surface (bottom of housing 32) positioned relative to the first buffer reservoir; wherein, if desired, the first buffer reservoir can be removed from the second reservoir.

In regards to the first buffer reservoir being removable, it is apparent that the buffer reservoir of Kraan could be removed by some means if so desired and again placed within the apparatus.

In regards to the presence of creamer within the first buffer reservoir, such is a desired used and provides no structural limitations to the claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reginald L. Alexander whose telephone number is 571-272-1395. The examiner can normally be reached on Monday-Friday.
